Hydra Pest Control was founded on the idea of advancing the pest control market in the communities that helped raise us.

After spending several years working in the field of pest control in other states and markets, we wanted to bring our family back to our hometowns where we grew up. With our knowledge and skills, we sought improve the lives of friends and neighbors with a modernized service.

Our years of experience, both in freezing cold environments and blistering hot summers, has helped us develop a service that is tailored to meet your needs.
