## Summary

---

Published : Jan 16, 2024

## Description

---

The Safford Agricultural Center provides research and service to farmers in a wide area that includes Graham, Greenlee and Cochise counties. Located just outside Safford in Graham County, this 63-acre agricultural center has been a performance testing site in the long staple cotton breeding program for more than 30 years. Solving problems in cotton is a particular focus; variety testing for a number of field crops is another. The Agricultural Center also provides the infrastructure for Cooperative Extension agricultural research throughout the southeastern part of the state. [Facebook](#) | [Instagram](#)
